

**REQUEST FOR A BRICK MATCH UP
EXAMPLE – DWELLING EXTENSIONS**

Information Sheet – compliments of Heritage Building Products

TYPE OF BRICK (tick which type of brick)

Pressed

Bricks made using the traditional method where each is pressed into a mould with its own unique shape and surface feature.

Wirecut (Extruded (round holes through brick))

Bricks are made using a modern extrusion manufacturing process giving them a uniform shape and finish.

Sandstock

Bricks are made in a similar way to that which the early settlers used. Each is individually formed and so each has a unique tumbled sandy finish.

DESCRIPTION OF BRICK

Colour(s): _____

Other Details: _____
